Deakin Accelerate

► Deakin Accelerate Information Evenings

Deakin Accelerate is a rewarding VCE extension studies program, where students complete two first-year university units alongside their Year 12 studies, either on campus or online (via our Cloud campus).

70% of Accelerate students choose to study online as it allows them to fit their study around their VCE timetable!

Students in the program get the same benefits of a fifth or sixth subject contributing to their ATAR, plus they'll gain university credit, and reduce the cost of their future degree.

2019 Accelerate Study Areas:

- accounting
- criminology
- disability, diversity and inclusion
- economics
- health practice and research
- journalism
- law
- management
- marketing
- psychological science
- robotics and data science
- sport management (new in 2019)

Students, parents and career practitioners are invited to attend an information evening to learn about the 2019 Deakin Accelerate program. You will hear from university experts and past program students, meet teaching academics and find out about the application process.

► Congratulations to Doncaster Secondary College Team 'Taco Bout Us' for winning the NextGen Challenge!

The Deakin Business School hosted an illuminate:nextgen Challenge at Doncaster Secondary College from 25 to 29 June 2018 with East Doncaster Secondary College also participating in the program. We had a total of 63 Year 10 students who were divided into eight teams with the theme of this challenge being 'social enterprise'.

The students had to come up with a solution to a current day problem and then develop a business plan, forecast financials, create marketing collateral and give an oral presentation. *Taco Bout Us* was the overall winner and did an amazing job from concept through to delivery.

Who is the program aimed at?

The program is targeted at Year 10 students who are:

- studying business related topics
- interested in starting their own business one day
- considering university post Year 12
- dedicated and deserve the opportunity to develop their skills

The challenge is aimed to impart a meaningful and inspiring learning experience to ignite students' interest and excite them about the world of business.

What is the cost of the program?

The program is free of charge.
