2.25pm – 3.10pm	Session 3 <i>Attend your chosen workshop (see below schedule)</i>
3.15pm	Event concludes <i>Guests depart campus</i>

WORKSHOP OVERVIEW

WORKSHOP 1

Faculty of Science, Engineering and Built Environment (SEBE)

There is more to IT than just computers

At Deakin, IT encompasses technologies of the future. Explore and experience all the innovative technologies and software available to students including Virtual Reality, Artificial Intelligence, Software Engineering, Games Design and Robotics.

WORKSHOP 2

Faculty of Science, Engineering and Built Environment (SEBE)

A bloody mess (Forensic Science)

Come for a hands-on tour of our forensic teaching facility, help solve a crime and see the equipment and techniques that students use when studying our accredited forensic science course. You'll also get the chance to hear about the combined forensic science and criminology courses we offer to students.

WORKSHOP 3

Faculty of Science, Engineering and Built Environment (SEBE)

What A-Boat Marine?

Come and see Deakin's amazing research vessel Yolla, and speak to the captain about the sophisticated and innovative instrumentation on-board. Hear from one of our talented Marine Science Academics who will be able to answer your questions about the Marine Biology Degree.

WORKSHOP 4

Faculty of Science, Engineering and Built Environment (SEBE)

Experience our future focused engineering facility, CADET

The Centre for Design in Engineering and Training (CADET) opened in 2015 and is a \$55 million state-of-the-art facility which houses some of the most advanced and future-focused simulation and visualisation systems, purpose-built interactive laboratories and learning environments in the country. You will have the opportunity to visit our Virtual Reality Cave, High Voltage Laboratory and 3D Printing Laboratory.

WORKSHOP 5

Faculty of Science, Engineering and Built Environment (SEBE)

Architecture and Built Environment at Deakin

All delivered via a virtual tour, experience our re-furnished facilities and open space environments, including our workshop full of new innovative equipment. Also, find out about our studio and the different learning space and experience which this space provides for students. Explore our new IDeA lab (The Interdisciplinary Design environments for Engineering and Architecture laboratory) – with a suite of high performance computers, stereographic video projection, 7.1 surround sound, oculus rift VR and state of the art 3D.

WORKSHOP 6

Faculty of Business and Law

Future-Proofing Careers

Learn what Deakin are doing to help our students stand out from the crowd. This session will showcase the real world experiences and Work Integrated Learning opportunities built into Business and Law courses. It will highlight the new compulsory 'Personal Insight' unit which teaches students how to market their ability, build their personal brand and broaden their career preparedness.

WORKSHOP OVERVIEW cont.

WORKSHOP 7

Deakin Residential Services Residential Accommodation Tour

Life on res is so much more than just a comfy bed in a safe building! Our on-campus residents enjoy a whole range of exclusive activities year round. Students are connected with a supportive community and this encouraging environment ensures they are able to create a balanced study and social life. Join our residential staff on a tour of the supportive environment students live in, including outdoor spaces, common areas, and study rooms.

WORKSHOP 8

Faculty of Health Exercise Sports Science

Increase your knowledge about our Bachelor of Exercise and Sport Science and learn about employment opportunities in the sport, community health and fitness industries. You will also tour our brand new Elite Sports Precinct as well as our Exercise and Sport Sciences labs.

WORKSHOP 9

Faculty of Health Vision Science/ Optometry

Tour our Optometry Clinical Skills Laboratories, small group active learning facilities and optometry practice. Learn more about Australia's only accelerated optometry course, Deakin's Bachelor of Vision Science/Master of Optometry.

WORKSHOP 10

Faculty of Health Medical Imaging

Learn more about our exciting four-year Medical Imaging degree and take a tour through our Medical Imaging labs that replicate the capabilities of real-world medical imaging clinics.

WORKSHOP 11

Faculty of Arts and Education Creative Arts Showcase

Take the opportunity to experience a range of creative art pieces students are producing on completion of their Creative Arts degrees. Come along to speak to Creative Arts experts and students about the state of art facilities and hear more about the courses that are available.

WORKSHOP 12

Faculty of Arts and Education Welcome to the real world

This workshop provides a practical, hands-on exploration of how social media can be harnessed to convey messages and connect with communities in meaningful ways. Participants will engage in self-reflection on their existing online identity(s) while being exposed to personal and professional strategies for developing a strong digital presence.

WORKSHOP 13

Faculty of Arts and Education Where in the world will teaching take you?

Hear from current students about their experiences studying Education and the endless opportunities available to participate in Global Mobility. Listen to our students talk about their journey and experience teaching in indigenous communities and abroad.

WORKSHOP 14

Faculty of Health Medicine

Deakin's Bachelor of Medicine/Bachelor of Surgery is a four-year graduate entry program with a rural focus, for students wishing to qualify as medical practitioners. Learn more about this course and take a tour through our facilities, educating the next generation of doctors.

WORKSHOP FULL
